

WSQG Mystery - The Second Set of Clues

Begin with the 48 squares $3\frac{7}{8}$ " of fabric (A) and fabric (B).

- Mark a diagonal line on the wrong side of the lighter of the two fabrics.
- Sew a line, a scant $\frac{1}{4}$ " from both sides of the line. Cut on the line. Open and press to the darker fabric, making 96 half-square triangle blocks. Trim off "ears". If needed trim block to $3\frac{1}{2}$ ".

Divide the squares into two stacks of 48 block units (A+B), placing corner of fabric (A) on the far right. To the right of one of these stacks, place 48 squares $3\frac{1}{2}$ " of fabric (B). Being careful not to rotate the half-square triangle, flip a square of (B) right side down onto triangle block and sew together with $\frac{1}{4}$ " seam along the right edge. Make 48. Press to solid square (B).

Repeat the process using the remaining 48 half-square triangle units (A+B) and the 48 squares of fabric (C). Press to square (C).

Place the (A+B) segments with square of (B) on the right edge. Rotate the (A+C) segments and stack above the (A+B) segments. The center points of triangle (A)'s should touch each other and form a butterfly. Sew all. Press to (A)+(B)+(C)'s. Block should measure $6\frac{1}{2}$ " square. Make 48. Set aside.
