

Basic Maintenance for Your Singer Featherweight

Skill Level: All

Instructor Names: Lori Bahnson lbahnson@gmail.com 307-299-1676
Regina Jameson

Learn how to do routine care and maintenance on your Featherweight sewing machine. Bring your working machine to class to clean, lube and adjust. We will cover proper threading, bobbin winding, tension adjustments, oiling moving parts, lubrication of gears and motor, belt adjustment or replacement, light bulb replacement, and proper sewing tips and techniques.

Supply list:

- *Featherweight machine with foot pedal, cords
- *screwdrivers that came with your machine
- *empty bobbin(s)
- *good quality thread
- *scissors
- *scrap quilting fabric (100% cotton) for checking tension
- *magnetic bowl for screws (available at Harbor Freight, Home Depot, Walmart, Amazon, Singer Featherweight Shop)
- *thread stand or post, if you have one
- *small flashlight
- *apron (or wear old clothes)
- *old bath towel
- *old T-shirt, 100% cotton, to be cut up
- *power cord for your Featherweight
- *extension cord
- *new sewing machine needle

HIGHLY RECOMMEND PURCHASING A FEATHERWEIGHT 221 TUNE UP KIT from the Singer Featherweight Shop (singer-featherweight.com), OR the NEW Singer FW maintenance & service handbook ONLY.
