

HAVING FUN WITH WOOL APPLIQUE & EMBROIDERY

Create your own picture or wall hanging of your own vintage sewing machine out of wool. This is an intermediate level project with some knowledge and experience of embroidery stitching.

- This will be a one-day class. Class Size : 10 to 12

CLASS SUPPLIES

- ✓ You will need to order the pattern from Buttermilk Basin Design Co.- "Spring Vintage Sewing Machine".
- ✓ Sharp small scissors (mine are Elan and have one blade serrated which grips wool well)
- ✓ Embroidery needles #7 and sturdy threader that fits needle and will pull through heavier thread.
- ✓ Small iron with ironing pad
- ✓ The pattern list talks about embroidery floss, and you should have Perle cotton #8 from DMC or I use Valdani #12. I like the colors of Valdani and they have nice variegated thread. Sometimes you want plain colors to exactly match the fabric and sometimes you want to embellish with the variegated. I will share strands of mine for your small wool pieces. If you already have Perle cotton it will work.
- ✓ There will be some advanced preparation to do before you come to Quilt Wyoming so that you can begin stitching at the beginning of class.

KIT FEE \$10 kit will include the items marked on pattern supply list with a + sign. They are the smaller pieces of various colors of which I have lots of.

Spring Vintage Sewing Machine

16 X 20 INCHES FRAMED

SUPPLIES NEEDED:

- 18 X 22 inch piece of ~~tan~~ fabric for background - use one that matches your color choice
- 5 X 15 inch strip of ~~green print~~ fabric for 3 prairie points
