

All Are Welcome Here Supply List

Workshop with Christina Cameli

- **A sewing machine.** A foot *without* a guide is best as we will not be piecing with precision and the guide may get in the way when larger seam allowances are used. Remember the **power cord** and **pedal!**
- **Neutral colored thread**
- **Rotary cutter**, quilting ruler and shears
- **Iron and ironing station** (if they are not being provided at the venue).
- **Leftover quilt blocks** and/or assorted pieced units from previous projects
- **Scraps** in colors that you like. Look to your pieced units for any emerging color scheme. See scrap notes below.
- A piece of **batting** approximately 24" x 24"

Scrap notes

- Scraps can be large or small. Anything over 1" wide can work! Gather as much as you want.
- I recommend including some solids with your print scraps.
- Consider a color scheme to help organize your color. Want an easy way to settle on a color scheme? Find a multicolored printed fabric you like and use colors from that print!
- Don't stress about this step. The magic happens as long as you have scraps you like! We will discuss refining color schemes in class. Just trust your instincts and put some fabric in a pile. We'll have fun no matter what.
