I love to find patterns for the newer quilters that seem complicated but are actually fairly easy for beginner quilters to complete. I also want to help those quilters who have done some quilting but feel they can't yet try patterns that look difficult.

I have been quilting for about 15 years and started sewing by making my own clothes around age 12. Having sewn both garments and quilts.....

Quilting is way more fun.

I have been teaching for the past 5 years. I want to help keep the art of quilting going by passing it down to the next generation. I look forward to every opportunity to pass my love for quilting on to my students, especially to the beginner quilters.
