## "Greenbelt"

This is a fantastic class to introduce you to Studio 180 Design tools. Beginners will be able to make very accurate half square triangles in a couple different sizes for this design. If you don't like green....how about purples. And if you don't really like this modern design layout, then I will be showing you 4 other ways to layout your blocks. I am sure you will find one design that you will love.

I have been quilting for about 16 years and started sewing by making my own clothes around age 12.

Having sewn both garments and quilts.....**Quilting is way more fun.**

A short time after learning something about quilting I discovered Deb Tucker's Studio 180 Design tools. *I have only used her tools since that time.* Her tools make getting all the units to fit together so much easier. I like to say...."Studio 180 makes my quilting look really good!" Almost any pattern can be adapted to her great tools.

I have been teaching quilting since 2016. I want to help keep the art of quilting going by passing it down to the next generation. I look forward to every opportunity to pass my love for quilting on to my students, teach them about the Studio 180 tools and help them learn the easiest way to achieve great results.
