

Bougainvillea

45" x 68"

Pretty flowers and huge thorns is what we saw when we first looked at this design, so the name could only be Bougainvillea! You'll have fun working with this planned color scheme, making big blocks, and then adding more interest by double popping the corners to create something really unique.

Required tools: Tucker Trimmer I, Corner Pop III

Quilt can be made in lap, twin or queen, class will focus on the lap.

Bougainvillea

Supply List
