For a 48" by 60" quilt

*One Jelly Roll (40 Strips by Width of Fabric). If you have 2 extra strips that match your Jelly Roll, it will make the piecing easier (total of 42).

2/3 yard fabric that contrasts ALL of the fabrics in the Jelly Roll. Or, 8 - 2 1/2" strips

For example, if your jelly roll is all blacks and whites, you'll want something really bright, red, lime green, bright pink, etc. If it is all shades of a similar color, look for something that will really show up. If your Jelly Roll is a lot of busy prints, look for a semi-solid that will show up against all of them. When selecting your contrast fabric, you're looking for that striking pop of color/contrast. If you wish to use the contrast fabric for borders as well, 2 yards will give you a 4" border and all of the smaller pieces.

Neutral thread
