I have been quilting for about 17 years and started sewing by making my own clothes around age 12. Having sewn both garments and quilts and..... **Quilting is way more fun.**

I have been teaching for the past 7 years, & I love to find or design patterns that look complicated and find easier ways to make them, so even beginner quilters can make them. I want to help keep the art of quilting going by passing it down to the next generation.

Studio 180 makes great tools to help quilters become better at piecing with each new tool they use. The Deb Tucker tools have made me a more accurate and better quilter and I want to show the tools to every quilter.
