I love to find patterns for the newer quilter that seem complicated but are actually fairly easy for beginner quilters to complete. I also want to help those quilters who have done some quilting but feel they can't yet try patterns that look difficult. I have been quilting for about 20 years but have been around sewing my entire life. Having sewn both garments and quilts..... Quilting is a lot more fun! I have been teaching for the past 8 years. I want to help keep the art of quilting going by encouraging anyone who is inspired by it. I look forward to every opportunity to empower and pass along my love for quilting on to my students, especially to the beginner quilters.
