

Scrappy Chickens Fabric Collage

Material List

Jane Haworth

www.janehaworth.com

Fabrics

A variety of plain and patterned pieces of fabric in colors suitable for a chicken. You can choose regular colors or bright, abstract colors. Hand dyes, batiks, Kaffe florals and prints, small scale prints, textures and blenders are good. You might choose a single color palette like I did. Bring red fabrics for the face and something unexpected for the feet. You only need small pieces, scraps work great. I encourage sharing or community fabrics. I provide a choice of patterns.

- Approx 1/2yd Pellon 830 called Pattern Ease or similar interfacing foundation. Does not need to be fusible.

Fabric Collage Supplies

- Aleene's Original Tacky Glue or other fabric glue or small glue bottle with needle applicator
- Small container to hold glue and glue spreader. [I do sell these for \$1] Toothpick, or coffee stirrer works
- Fabric scissors and good small sharp scissors for cutting fabric. I use Karen Kay Buckley 6" perfect scissors.
- Pencil
- Chalk marking pencil or tool. I like the Bohin chalk pencil (red colored, thicker one)
- Small trash bag for scraps
- Optional: Tweezers.
- Optional: Light box or pad. Painters tape, I will have some available.

I like to choose my background fabric after the collage is made but you might want to consider this.
