

Potato Chip Quilt Supply List

This quilt is made up of 42 12 1/2 inch unfinished blocks. When finished it measures 72" x 84". Each quilt requires a total of 1110 2 1/2 " x 4 1/2" rectangles and eight 2 1/2" x 40" strips for a stop border. Donna recommends that you come to class with at least some of the rectangles already cut and enough fabric for the remaining rectangles. This quilt comes together quickly and you will be surprised at how much you finish if you have all your rectangles cut prior to class.

It can be totally scrappy or you can coordinate your colors. If you are not using scraps you will need approximately 3 1/2 jelly rolls of fabric.

Machine and basic sewing supplies.
