**Skill Level: All**

My Original quilt was made in 1994, and I have since made it as a dog, bunny, kitty and other animals to delight the child in all of us. The original quilt uses scraps of plaid fabric, but florals and prints look just as charming. You could even mix it all up and make it a barnyard quilt. How about adding a fence? The process is the same, you are the artist. The eyes are buttons and the tail and mane are embroidery floss so let your imagination soar. Depending on your determination and drive, you could get a couple of animals completed in class and some of your sashing strips (They measure 5" in length). Size of finished quilt is 44" x 52" Look at old coloring books and old patterns to locate other animals if you don't want to do horses. I will be bring animal pictures with me also. This book may be found on ETSY or used book store like Thrift books for around \$15.00. The book title is Favorite Flannel quilts 1994.
