Four Corner Starburst

90" x 90"

This pattern uses just three fabrics to make the design!
The example uses a blue colorway, but any three colors
will work as long as light, medium and dark fabrics are
selected. This simplifies the fabric selection process and
the associated stress. We all need less stress! RIGHT?

Pattern instructions are presented in three shades of grey
(no stress remember). The center of the quilt measures
64" x 64". A nice sized lap quilt. Other sizes are
achieved by adding boarders around the center. The
illustrated quilt was designed to fit a king size bed
and measures 90" x 90".
